EDUCATION

Bachelor of Technology in Computer Science and Engineering
KIIT University, Bhubaneswar

2024 – 2028
CGPA: 8.49/10.0

EXPERIENCE

Data Science Intern

May 2026 – Present

NextBext.AI (Remote)

- Developed and maintained 8+ Angular components using TypeScript, improving frontend consistency and reducing development effort by 25%.
- Integrated backend APIs and optimized application performance, reducing page load times by 20%.
- Built and evaluated machine learning models including Random Forest and XGBoost, improving prediction accuracy by 15%.

Jr Software Associate

Nov 2025 – Mar 2026

Donum (Remote)

- Contributed to the development of a MERN-stack gifting platform, helping deliver 20+ product enhancements that improved overall user experience.
- Built responsive frontend modules and optimized user flows, reducing navigation complexity and increasing feature adoption.
- Collaborated with developers and designers to implement scalable product features, shortening development cycles by 25%.
- Assisted in API integration and database operations, ensuring reliable data exchange and seamless platform performance.

PROJECTS

AgniDrishti — AI-Powered Geospatial Fire Detection

FastAPI, Python, PostgreSQL, PostGIS

- Led backend development using FastAPI, building REST APIs connecting ML classification, PostGIS storage, and the Next.js geospatial dashboard.
- Designed spatial data workflows for thermal/fire events and geographic coordinates using PostgreSQL + PostGIS with Alembic-managed migrations.
- Integrated a 3-class ML fire classifier achieving 84% recall for fire observations and 89% recall for fire-like observations.
- Deployed backend services on Render with Neon PostgreSQL/PostGIS, enabling end-to-end satellite-data-to-dashboard workflows.
- Live : [\[AgniDrishti\]](#)

EstateX — AI House Price Prediction

Python, Scikit-learn, Streamlit

- Built a machine learning pipeline for predicting property prices using housing datasets.
- Performed feature engineering and preprocessing, improving model accuracy by 18%.
- Evaluated multiple regression models and deployed the best-performing solution.
- Developed an interactive Streamlit dashboard enabling real-time property price estimation.
- Live : [\[EstateX\]](#)

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript

Frontend: Angular, TypeScript, HTML, CSS, Tailwind CSS

Backend & Databases: FastAPI, Express.js, MongoDB, SQL

AI/ML: Scikit-learn, Pandas, NumPy, XGBoost, Random Forest

Tools: Git, GitHub, Streamlit, Power BI

LEADERSHIP & ACHIEVEMENTS

- Winner — 12-Hour Hackathon organized by KIIT K1000.
- Junior Mentor (Web Development), KIIT K1000 — Mentored 50+ students in full stack development, Git workflows, and project collaboration.
- Built and deployed multiple full-stack and machine learning projects using modern development tools and frameworks.
